Altarek Attallah

Full Stack Developer

New Cairo, Cairo | +201061258009 | tarekattallah00@gmail.com
LinkedIn | GitHub | Portfolio

Professional Summary

Full Stack Developer building secure, maintainable web applications with JavaScript, React, Node.js, and Express.js. Experienced in RESTful APIs, SQL/NoSQL databases, authentication, and RBAC, with projects in judicial fee calculation, operations management, and online examinations. Graduate of the DigiLians AI-Powered Software Development Program, delivered by NTI with the Egyptian Military Academy under the Digital Pioneers Initiative. Focused on clean architecture, software quality, and practical problem-solving.

Technical Skills

- **Frontend:** HTML5, CSS3, JavaScript, TypeScript, React.js, Tailwind CSS, Bootstrap, Responsive Design.
- **Backend:** Node.js, Express.js, REST APIs, Python, JWT, Authentication & Authorization.
- **Databases:** MongoDB, Mongoose, MySQL, PostgreSQL, Data Modeling, Database Design, Query Optimization.
- **Engineering:** OOP, Data Structures & Algorithms, Big O, Clean Code, Repository Pattern, Microservices, Unit Testing, Debugging.
- **Cloud & DevOps:** AWS, Docker, Kubernetes, Terraform, GitHub Actions, CI/CD, Infrastructure as Code.
- **AI & Tools:** Generative AI, Prompt Engineering, AI-Assisted Development, Git, GitHub, Postman, VS Code.

Software Projects

Egyptian Judicial Fees – Court Fee Calculation Platform *React, TypeScript, Express, PostgreSQL, Prisma*

- Built an Arabic RTL platform for court fee estimation and settlement review, with precise rule-based calculations and traceable legal references.
- Implemented RBAC, independent rule approvals, SHA-256 hash-chained audit logs, and assessment dashboards, with automated calculation and permission tests.

MessOps – Mess & Warehouse Management Live Demo

React, Node.js, Express, MongoDB

- Developed a full-stack platform managing meals, inventory, requests, and reservations.
- Implemented FEFO/FIFO stock allocation and dashboards for inventory and operational tracking.

Karate Learning – Learning & Examination Platform Live Demo

TanStack Start, MongoDB, Mongoose

- Built a responsive platform for learning WKF Kata and Kumite rules and preparing for referee and coach examinations.
- Implemented authentication, timed exams, automated grading, and progress tracking.

African Karate Federation – Referee Examinations Live Demo

Node.js, PostgreSQL, REST APIs

- Developed a referee examination platform with timed tests, automatic question progression, answer tracking, and automated scoring.
- Implemented administrator and instructor roles with centralized exam and results management.

MediBook – Healthcare Appointment Booking Live Demo

React, Node.js, Express, MongoDB

- Developing a full-stack appointment platform for patients, doctors, and administrators.
- Implemented JWT authentication, RBAC, appointment workflows, and REST APIs backed by MongoDB.

Professional Training

Full Stack Development Trainee – Ministry of Justice Sep 5, 2026 – Oct 16, 2026

- Contributed to the development of a judicial fee calculation and review platform using React, TypeScript, Express, PostgreSQL, and Prisma.
- Worked on rule-based fee calculations, role-based access control, and dashboards for tracking assessments and settlements.

Software Development Diploma Dec 2025 – Sep 2026

Digilians – Digital Pioneers Initiative — 9 Months

- Intensive training in full-stack development, software architecture, cybersecurity, cloud computing, DevOps, and AI-assisted development.
- **Core Coursework:** Software Foundations, Frontend & UX, Backend & Databases, Advanced Security, DevOps & Cloud, Full-Stack Capstone.

Web Design Training – Digital Egypt Youth Program *Jul – Aug 2025*

National Telecommunication Institute (NTI)

- Completed 120 hours of training: 90 technical hours and 30 hours of freelancing coaching, achieving a score of 87%.

Certifications

- **AWS Certified Developer - Associate** – AWS — Oct 2026
- **AWS Certified Cloud Practitioner (CLF-C02)** – AWS — Aug 2026
- **Meta Front-End Developer Professional Certificate** – Meta / Coursera — May 2026
- **CS50x: CS50's Introduction to Computer Science** – HarvardX, via edX — Dec 2025
- **MITx: Introduction to CS & Programming Using Python** – MIT — Mar 2026
- **Advanced DevOps Tools and Practices** – Coursera — May 2026
- **CS50's Introduction to Databases with SQL** – Harvard University — CS50 — Nov 2026

Education

B.Sc. in Science (Special Chemistry) 2018 – 2022
Faculty of Science, Benha University

Diploma in Software Developmen 2023 – 2024
Faculty of Science, Benha University
